"Coulee Ride"

Come on a ride and see what Gods Country is all about. We will take a ride through the Coulees of Western Wisconsin as we experience some great twisties, sweepers and roads that were made with a motorcycle rider in mind. We will stop at Hansen's Holdup and the Mindoro Cut for photos. This will be a nice 4 hour ride that will allow you to be back in time for the afternoon and evening events, but you will come back feeling you got some awesome riding in for the day! This ride will not have a lunch stop. This a medium paced ride and is geared for those that would like to experience some great roads, but don't want to hit them hard.
